⁽a) Inception date of the Fund was December 8, 2020.

⁽b) Net investment income per share has been calculated based on average shares outstanding during the periods.

⁽c) Realized and unrealized gains and losses per share in the caption are balancing amounts necessary to reconcile the change in net asset value per share for the periods, and may not reconcile with the aggregate gains and losses in the Statement of Operations due to share transactions for the periods.

⁽d) Amount represents less than \$0.005 per share.

⁽e) Not annualized for periods less than one year.

⁽f) Annualized for periods less than one year.

⁽g) Portfolio turnover rate excludes in-kind transactions.

February 28, 2025 (Unaudited)

NOTE 1 – ORGANIZATION

The Adasina Social Justice All Cap Global ETF (the "Fund") is a diversified series of shares of beneficial interest of Tidal ETF Trust (the "Trust"). The Trust was organized as a Delaware statutory trust on June 4, 2018 and is registered with the Securities and Exchange Commission (the "SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company and the offering of the Fund's shares ("Shares") is registered under the Securities Act of 1933, as amended. The Trust is governed by its Board of Trustees (the "Board"). Tidal Investments LLC ("Tidal Investments" or the "Adviser"), a Tidal Financial Group company, serves as investment adviser to the Fund and Robasciotti & Associates, Inc., doing business as Adasina Social Capital ("Adasina" or the "Sub-Adviser") serves as investment sub-adviser to the Fund. The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 "Financial Services—Investment Companies." The Fund commenced operations on December 8, 2020.

The investment objective of the Fund is to seek capital appreciation and income.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund. These policies are in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

A. Security Valuation. Equity securities listed on a securities exchange, market or automated quotation system for which quotations are readily available (except for securities traded on the NASDAQ Stock Market, LLC ("NASDAQ")), including securities traded overthe-counter, are valued at the last quoted sale price on the primary exchange or market (foreign or domestic) on which they are traded on the valuation date (or at approximately 4:00 p.m. EST if a security's primary exchange is normally open at that time), or, if there is no such reported sale on the valuation date, at the most recent quoted bid price or mean between the most recent quoted bid and ask prices for long and short positions. For a security that trades on multiple exchanges, the primary exchange will generally be considered the exchange on which the security is generally most actively traded. For securities traded on NASDAQ, the NASDAQ Official Closing Price will be used. Prices of securities traded on the securities exchange will be obtained from recognized independent pricing agents each day that the Fund is open for business.

Units of Mount Vernon Liquid Assets Portfolio, LLC are not traded on an exchange and are measured at fair value using the investment company's net asset value ("NAV") per share (or its equivalent) practical expedient as provided by the underlying fund's administrator.

Under Rule 2a-5 of the 1940 Act, a fair value will be determined by the Valuation Designee (as defined in Rule 2a-5) in accordance with the Pricing and Valuation Policy and Fair Value Procedures, as applicable, of the Adviser, subject to oversight by the Board. When a security is "fair valued," consideration is given to the facts and circumstances relevant to the particular situation, including a review of various factors set forth in the Adviser's Pricing and Valuation Policy and Fair Value Procedures, as applicable. Fair value pricing is an inherently subjective process, and no single standard exists for determining fair value. Different funds could reasonably arrive at different values for the same security. The use of fair value pricing by a fund may cause the NAV of its shares to differ significantly from the NAV that would be calculated without regard to such considerations.

As described above, the Fund utilizes various methods to measure the fair value of its investments on a recurring basis. U.S. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics

February 28, 2025 (Unaudited)

particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following is a summary of the inputs used to value the Fund's investments as of February 28, 2025:

Investments in Securities	Level 1		Level 2		Level 3		Total	
Common Stocks	\$	218,577,518	\$	51,502	\$	23,931	\$	218,652,951

		Common Stocks	
Balance as of August 31, 2024	\$	25,471	
Accrued discounts/premiums		-	
Realized gain (loss)		-	
Change in unrealized appreciation/(depreciation)		(1,540)	
Purchases		-	
Sales		-	
Corporate actions		-	
Transfer into and/or out of Level 3		-	
Balance as of February 28, 2025	\$	23,931	
Change in unrealized appreciation/(depreciation) during the period for Level 3 investments held at February 28, 2025.	\$	(1,540)	

⁽a) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Schedule of Investments

B. Federal Income Taxes. The Fund has elected to be taxed as a "regulated investment company" and intends to distribute substantially all taxable income to its shareholders and otherwise comply with the provisions of the Internal Revenue Code applicable to regulated investment companies. Therefore, no provision for federal income taxes or excise taxes has been made.

In order to avoid imposition of the excise tax applicable to regulated investment companies, the Fund intends to declare as dividends in each calendar year at least 98% of its net investment income (earned during the calendar year) and at least 98.2% of its net realized capital gains (earned during the twelve months ended October 31) plus undistributed amounts, if any, from prior years. As a registered investment company, the Fund is subject to a 4% excise tax that is imposed if the Fund does not distribute by the end of any calendar year at least the sum of (i) 98% of its ordinary income (not taking into account any capital gain or loss) for the calendar year and (ii) 98.2% of its capital gain in excess of its capital loss (adjusted for certain ordinary losses) for a one year period generally ending on October 31 of the calendar year (unless an election is made to use the Fund's fiscal year). The Fund generally intends to distribute income and capital gains in the manner necessary to minimize (but not necessarily eliminate) the imposition of such excise tax. The Fund may retain income or capital gains and pay excise tax when it is determined that doing so is in the best interest of shareholders. Management evaluates the costs of the excise tax relative to the benefits of retaining income and capital gains, including that such undistributed amounts (net of the excise tax paid) remain available for investment by the Fund and are available to supplement future distributions. Tax expense is disclosed in the Statement of Operations, if applicable.

February 28, 2025 (Unaudited)

As of February 28, 2025, the Fund did not have any tax positions that did not meet the threshold of being sustained by the applicable tax authority. Generally, tax authorities can examine all the tax returns filed for the last three years. The Fund identifies its major tax jurisdiction as U.S. Federal and the Commonwealth of Delaware; however, the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits on uncertain tax positions as income tax expense in the Statement of Operations.

- C. Securities Transactions and Investment Income. Investment securities transactions are accounted for on the trade date. Gains and losses realized on sales of securities are determined on a specific identification basis. Discounts/premiums on debt securities purchased are accreted/amortized over the life of the respective securities using the effective interest method. Dividend income is recorded on the exdividend date. Interest income is recorded on an accrual basis. Other non-cash dividends are recognized as investment income at the fair value of the property received. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates.
- D. Foreign Currency. Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions.

The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

The Fund reports net realized foreign exchange gains or losses that arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at period end, resulting from changes in exchange rates.

- E. *Distributions to Shareholders*. Distributions to shareholders from net investment income, if any, for the Fund are declared and paid semi-annually. Distributions to shareholders from net realized gains on securities, if any, for the Fund normally are declared and paid at least annually. Distributions are recorded on the ex-dividend date.
- F. Use of Estimates. The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.
- G. Share Valuation. The NAV per Share of the Fund is calculated by dividing the sum of the value of the securities held by the Fund, plus cash or other assets, minus all liabilities by the total number of Shares outstanding for the Fund, rounded to the nearest cent. Fund shares will not be priced on the days on which the New York Stock Exchange ("NYSE") is closed for trading.
- H. Guarantees and Indemnifications. In the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.
- I. Illiquid Securities. Pursuant to Rule 22e-4 under the 1940 Act, the Fund has adopted a Board-approved Liquidity Risk Management Program (the "Program") that requires, among other things, that the Fund limit its illiquid investments that are assets to no more than 15% of the value of the Fund's net assets. An illiquid investment is any security that the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. If the Fund should be in a position where the value of illiquid investments held by the Fund exceeds 15% of the Fund's net assets, the Fund will take such steps as set forth in the Program.

February 28, 2025 (Unaudited)

NOTE 3 - PRINCIPAL INVESTMENT RISKS

- A. Emerging and Developing Markets Risk. The Fund may invest in securities issued by companies domiciled or headquartered in emerging and developing market nations. Investments in securities traded in emerging and developing markets, or that provide exposure to such securities or markets, can involve additional risks relating to political, economic, currency, or regulatory conditions not necessarily associated with investments in U.S. securities and in more developed international markets. Such conditions may impact the ability of the Fund to buy, sell, or otherwise transfer securities, adversely affect the trading market and price for Shares and cause the Fund to decline in value.
- B. Foreign Securities Risk. Investments in securities or other instruments of non-U.S. issuers, including depositary receipts, such as ADRs, involve certain risks not involved in domestic investments and may experience more rapid and extreme changes in value than investments in securities of U.S. companies. Financial markets in foreign countries often are not as developed, efficient, or liquid as financial markets in the United States, and therefore, the prices of non-U.S. securities and instruments, including ADRs, can be more volatile. In addition, the Fund will be subject to risks associated with adverse political and economic developments in foreign countries, which may include the imposition of economic sanctions. Generally, there is less readily available and reliable information about non-U.S. issuers due to less rigorous disclosure or accounting standards and regulatory practices.
- C. Equity Market Risk. The equity securities held in the Fund's portfolio may experience sudden, unpredictable drops in value or long periods of decline in value. This may occur because of factors that affect securities markets generally or factors affecting specific issuers, industries, or sectors in which the Fund invests. Common stocks, in which the Fund primarily invests, are generally exposed to greater risk than other types of securities, such as preferred stocks and debt obligations, because common stockholders generally have inferior rights to receive payment from issuers.
- D. Sector Risk. At times the Fund may increase the relative emphasis of its investments in a particular sector or group of industries. The prices of securities of issuers in a particular sector may be more susceptible to fluctuations due to changes in economic or business conditions, government regulations, availability of basic resources or supplies, or other events that affect that industry or sector more than securities of issuers in other industries and sectors. To the extent that the Fund increases the relative emphasis of its investments in a particular industry or sector, the value of Shares may fluctuate in response to events affecting that industry or sector.
- E. *Style Risk.* Applying Racial, Gender, Economic, and Climate Justice as well as Movement Aligned criteria to the Fund's investment selection process may exclude securities of certain issuers for non-financial reasons and therefore, the Fund may underperform the broader equity market or other funds that do not utilize similar criteria when selecting investments.
- F. Index Risk. The Adasina Social Justice Index (the "Index") may not reflect all companies meeting the Index's eligibility criteria if certain company characteristics are not known at the time the Index is composed or reconstituted.
- G. *Management Risk*. The Fund is actively-managed and may not meet its investment objectives based on Adasina's success or failure to implement investment strategies for the Fund.
- H. ETF Risks.
 - Authorized Participants, Market Makers, and Liquidity Providers Concentration Risk. The Fund has a limited number of financial institutions that are authorized to purchase and redeem Shares directly from the Fund (known as "Authorized Participants" or "APs"). In addition, there may be a limited number of market makers and/or liquidity providers in the marketplace. To the extent either of the following events occurs, Shares may trade at a material discount to NAV and possibly face delisting: (i) APs exit the business or otherwise become unable to process creation and/or redemption orders and no other APs step forward to perform these services; or (ii) market makers and/or liquidity providers exit the business or significantly reduce their business activities and no other entities step forward to perform their functions.
 - Costs of Buying or Selling Shares. Due to the costs of buying or selling Shares, including brokerage commissions imposed by brokers and bid-ask spreads, frequent trading of Shares may significantly reduce investment results. An investment in Shares may not be advisable for investors who anticipate regularly making small investments.
 - Shares May Trade at Prices Other Than NAV. As with all ETFs, Shares may be bought and sold in the secondary market at market prices. Although it is expected that the market price of Shares will approximate the Fund's NAV, there may be times

February 28, 2025 (Unaudited)

when the market price of Shares is more than the NAV intra-day (premium) or less than the NAV intra-day (discount) due to supply and demand of Shares or during periods of market volatility. This risk is heightened in times of market volatility, periods of steep market declines, and periods when there is limited trading activity for Shares in the secondary market, in which case such premiums or discounts may be significant. Because securities held by the Fund may trade on foreign exchanges that are closed when the Fund's primary listing exchange is open, the Fund is likely to experience premiums and discounts greater than those of ETFs holding only domestic securities.

- Trading. Although Shares are listed on a national securities exchange, such as the NYSE Arca, Inc. (the "Exchange"), and may be traded on U.S. exchanges other than the Exchange, there can be no assurance that Shares will trade with any volume, or at all, on any stock exchange. In stressed market conditions, the liquidity of Shares may begin to mirror the liquidity of the Fund's underlying portfolio holdings, which can be significantly less liquid than Shares. Also, in stressed market conditions, the market for Shares may become less liquid in response to deteriorating liquidity in the markets for the Fund's underlying portfolio holdings. These adverse effects on liquidity for Shares, in turn, could lead to wider bid/ask spreads and differences between the market price of Shares and the underlying value of those Shares.
- I. General Market Risk. Economies and financial markets throughout the world are becoming increasingly interconnected, which increases the likelihood that events or conditions in one country or region will adversely impact markets or issuers in other countries or regions. The market value of a security in the Fund's portfolio may move up or down, sometimes rapidly and unpredictably. These fluctuations may cause a security to be worth less than the price the Fund originally paid for it, or less than it was worth at an earlier time. Securities in the Fund's portfolio may underperform in comparison to securities in the general financial markets, a particular financial market, or other asset classes, due to a number of factors, including inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters or events, pandemic diseases, terrorism, regulatory events, and government controls.
- J. Market Capitalization Risk.
 - Large-Capitalization Investing. The securities of large-capitalization companies may be relatively mature compared to smaller companies and, therefore subject to slower growth during economic expansion. Large-capitalization companies may also be unable to respond quickly to new competitive challenges, such as evolving technology and changing consumer tastes.
 - Mid-Capitalization Investing. The securities of mid-capitalization companies may be more vulnerable to adverse issuer, market, political, or economic developments than securities of large-capitalization companies. The securities of mid-capitalization companies generally trade in lower volumes and are subject to greater and more unpredictable price changes than large-capitalization stocks or the stock market as a whole.
 - Small-Capitalization Investing. The securities of small-capitalization companies may be more vulnerable to adverse issuer, market, political, or economic developments than securities of large- or mid-capitalization companies. The securities of small-capitalization companies generally trade in lower volumes and are subject to greater and more unpredictable price changes than large- or mid-capitalization stocks or the stock market as a whole. There is typically less publicly available information concerning smaller-capitalization companies than for larger, more established companies.
- K. Third Party Data Risk. The composition of the Index, and consequently the Fund's portfolio, is heavily dependent on information and data calculated and published by independent third parties ("Third Party Data"). Third Party Data is carefully compiled from sources determined by Adasina to be reliable and is valid at the time it is obtained, but Adasina cannot guarantee the accuracy of any third-party information. When Third Party Data proves to be incorrect or incomplete, any decisions made in reliance thereon may lead to the inclusion or exclusion of securities from the Index that would have been excluded or included had the Third Party Data been correct and complete. If the composition of the Index reflects such errors, the Fund's portfolio can also be expected to reflect the errors.

NOTE 4 – COMMITMENTS AND OTHER RELATED PARTY TRANSACTIONS

The Adviser serves as investment adviser to the Fund pursuant to an investment advisory agreement between the Adviser and the Trust, on behalf of the Fund (the "Advisory Agreement"), and, pursuant to the Advisory Agreement, provides investment advice to the Fund and oversees the day-to-day operations of the Fund, subject to the direction and oversight of the Board. The Adviser is also responsible for trading portfolio

February 28, 2025 (Unaudited)

securities for the Fund, including selecting broker-dealers to execute purchase and sale transactions, subject to the supervision of the Board. The Adviser provides oversight of the Sub-Adviser and review of the Sub-Adviser's performance.

Pursuant to the Advisory Agreement, the Fund pays the Adviser a unitary management fee (the "Investment Advisory Fee") based on the average daily net assets of the Fund at the annualized rate of 0.89%. Out of the Investment Advisory Fee, the Adviser is obligated to pay or arrange for the payment of substantially all expenses of the Fund, including the cost of sub-advisory, transfer agency, custody, fund administration, and all other related services necessary for the Fund to operate. Under the Advisory Agreement, the Adviser has agreed to pay, or require the Sub-Adviser to pay, all expenses incurred by the Fund except for interest charges on any borrowings, dividends and other expenses on securities sold short, taxes, brokerage commissions and other expenses incurred in placing orders for the purchase and sale of securities and other investment instruments, acquired fund fees and expenses, accrued deferred tax liability, extraordinary expenses, distribution fees and expenses paid by the Fund under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act (collectively, "Excluded Expenses"), and the Investment Advisory Fee payable to the Adviser. The Investment Advisory Fees incurred are paid monthly to the Adviser. Investment Advisory Fees for the six-months ended February 28, 2025 are disclosed in the Statement of Operations.

The Sub-Adviser serves as investment sub-adviser to the Fund, pursuant to a sub-advisory agreement between the Adviser and the Sub-Adviser with respect to the Fund (the "Sub-Advisory Agreement"). Pursuant to the Sub-Advisory Agreement, the Sub-Adviser is responsible for the day-to-day management of the Fund's portfolio, including determining the securities purchased and sold by the Fund, subject to the supervision of the Adviser and the Board. The Sub-Adviser is paid a fee by the Adviser, which is calculated daily and paid monthly, at an annual rate of 0.02% of the Fund's average daily net assets. The Sub-Adviser has agreed to assume the Adviser's obligation to pay all expenses incurred by the Fund, except for Excluded Expenses. For assuming the payment obligation, the Adviser has agreed to pay to the Sub-Adviser the profits, if any, generated by the Fund's Investment Advisory Fee, less a contractual fee retained by the Adviser. Expenses incurred by the Fund and paid by the Sub-Adviser include fees charged by Tidal (defined below), which is an affiliate of the Adviser.

Tidal ETF Services LLC ("Tidal"), a Tidal Financial Group company and an affiliate of the Adviser, serves as the Fund's administrator and, in that capacity, performs various administrative and management services for the Fund. Tidal coordinates the payment of Fund-related expenses and manages the Trust's relationships with its various service providers. As compensation for the services it provides, Tidal receives a fee based on the Fund's average daily net assets, subject to a minimum annual fee. Tidal also is entitled to certain out-of-pocket expenses for the services mentioned above.

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services ("Fund Services"), serves as the Fund's sub-administrator, fund accountant and transfer agent. In those capacities, Fund Services performs various administrative and accounting services for the Fund. Fund Services prepares various federal and state regulatory filings, reports and returns for the Fund, including regulatory compliance monitoring and financial reporting; prepares reports and materials to be supplied to the Board; and monitors the activities of the Fund's custodian. U.S. Bank N.A. (the "Custodian"), an affiliate of Fund Services, serves as the Fund's custodian. The Custodian acts as the securities lending agent (the "Securities Lending Agent") for the Fund.

Foreside Fund Services, LLC (the "Distributor") acts as the Fund's principal underwriter in a continuous public offering of the Fund's shares.

Certain officers and a trustee of the Trust are affiliated with the Adviser. Neither the affiliated trustee nor the Trust's officers receive compensation from the Fund.

NOTE 5 - SECURITIES LENDING

The Fund may lend up to 33 1/3% of the value of the securities in its portfolio to brokers, dealers and financial institutions (but not individuals) under terms of participation in a securities lending program administered by the Securities Lending Agent. The securities lending agreement requires that loans are collateralized at all times in an amount equal to at least the market value of the securities loaned by the Fund. The Fund receives compensation in the form of net fees and earned interest on the cash collateral. Due to timing issues of when a security is recalled from loan, the financial statements may differ in presentation. The amount of fees depends on a number of factors including the type of security and length of the loan. The Fund continues to receive interest payments or dividends on the securities loaned during the borrowing period. Gain or loss in the value of securities loaned that may occur during the term of the loan will be for the account of the Fund. The Fund has the right under the terms of the securities lending agreements to recall the securities from the borrower on demand.

As of February 28, 2025, market value of the securities on loan and payable on collateral received for securities lending were as follows:

February 28, 2025 (Unaudited)

Market Value of Securities on Loan \$10,125,441

Payable on Collateral Received \$10,238.584

Percentage of Net Assets of Securities on Loan

The cash collateral is invested in the Mount Vernon Liquid Assets Portfolio, LLC, of which the investment objective is to seek to maximize income to the extent consistent with the preservation of capital and liquidity and maintain a stable NAV of \$1.00. Although risk is mitigated by the collateral, the Fund could experience a delay in recovering its securities and possible loss of income or value if the borrower fails to return the borrowed securities. In addition, the Fund bears the risk of loss associated with the investment of cash collateral received.

During the six-months ended February 28, 2025, the Fund loaned securities that were collateralized by cash. The cash collateral received was invested in the Mount Vernon Liquid Assets Portfolio, LLC as listed in the Fund's Schedule of Investments. Securities lending income is disclosed in the Fund's Statement of Operations.

The Fund is not subject to a master netting agreement with respect to the Fund's participation in securities lending; therefore, no additional disclosures regarding netting arrangements are required.

NOTE 6 - SEGMENT REPORTING

In accordance with the FASB Accounting Standards Update (ASU) 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures, the Fund has evaluated its business activities and determined that it operates as a single reportable segment.

The Fund's investment activities are managed by the Adviser, which serves as the Chief Operating Decision Maker ("CODM"). The Adviser is responsible for assessing the Fund's financial performance and allocating resources. In making these assessments, the Adviser evaluates the Fund's financial results on an aggregated basis, rather than by separate segments. As such, the Fund does not allocate operating expenses or assets to multiple segments, and accordingly, no additional segment disclosures are required. There were no intraentity sales or transfers during the reporting period.

The Fund primarily generates income through dividends, interest, and realized/unrealized gains on its investment portfolio. Expenses incurred, including management fees, Fund operating expenses, and transaction costs, are considered general Fund-level expenses and are not allocated to specific segments or business lines.

Management has determined that the Fund does not meet the criteria for disaggregated segment reporting under ASU 2023-07 and will continue to evaluate its reporting requirements in accordance with applicable accounting standards.

NOTE 7 - PURCHASES AND SALES OF SECURITIES

For the six-months ended February 28, 2025, the cost of purchases and proceeds from the sales or maturities of securities, excluding short-term investments, in-kind transactions and U.S. government securities were \$94,511,629 and \$87,934,854, respectively.

For the six-months ended February 28, 2025, there were no purchases or sales of long-term U.S. government securities.

For the six-months ended February 28, 2025, in-kind transactions associated with creations and redemptions for the Fund were \$66,880,585 and \$61,104,899, respectively.

NOTE 8 - INCOME TAXES AND DISTRIBUTIONS TO SHAREHOLDERS

The tax character of distributions paid during the six-months ended February 28, 2025 (estimated) and the prior fiscal year ended August 31, 2024 were as follows:

Distributions paid from:	February 28, 2025	August 31, 2024
Ordinary income	\$1,420,038	\$1,622,195

As of the prior fiscal year ended August 31, 2024, the components of distributable earnings on a tax basis were as follows:

February 28, 2025 (Unaudited)

Investments, at cost ^(a) Gross tax unrealized appreciation	\$190,239,836 30,829,540
Gross tax unrealized depreciation	(4,745,016)
Net tax unrealized appreciation (depreciation)	26,084,524
Undistributed ordinary income (loss)	684,205
Undistributed long-term capital gain (loss)	-
Total distributable earnings	684,205
Other accumulated gain (loss)	(14,714,352)
Total distributable earnings	\$12,054,377

in The differences between book and tax-basis unrealized appreciation was attributable primarily to the treatment of wash sales and PFIC mark to market adjustments.

Net capital losses incurred after October 31 (post-October losses) and net investment losses incurred after December 31 (late-year losses), and within the taxable year, may be elected to be deferred to the first business day of the Fund's next taxable year. As of the most recent fiscal year ended August 31, 2024, the Fund had not elected to defer any post-October or late-year losses. As of the most recent fiscal year ended August 31, 2024, the Fund had long-term and short-term capital loss carryovers of \$(5,408,251) and \$(9,306,101), respectively, which do not expire.

NOTE 9 - CREDIT FACILITY

U.S. Bank N.A. has made available to the Fund a credit facility pursuant to a Loan Agreement for temporary or extraordinary purposes. Credit facility details for the six-months ended February 28, 2025, were as follows for the Fund:

Maximum available credit	\$50,000,000
Largest amount outstanding on an individual day	-
Average daily loan outstanding when in use	-
Credit facility outstanding as of February 28, 2025	-
Average interest rate, when in use	8.50%
Interest rate terms	Prime
Interest rate as of February 28, 2025	7.50%
Expiration date	June 25, 2025

Interest expense incurred for the six-months ended February 28, 2025 is disclosed in the Statement of Operations, if applicable. The credit facility is an uncommitted, senior secured 364-day umbrella line of credit used for the benefit of certain funds in the Trust.

The maximum available credit is disclosed at the Trust level. The Fund's ability to borrow is therefore limited by borrowings of other funds within the Trust which are party to the agreement and to one-third of the Fund's total assets.

NOTE 10 - SHARES TRANSACTIONS

Shares of the Fund are listed and traded on the Exchange. Market prices for the shares may be different from their NAV. The Fund issues and redeems shares on a continuous basis at NAV generally in large blocks of shares, called Creation Units. Creation Units are issued and redeemed principally inkind for securities included in a specified universe. Once created, shares generally trade in the secondary market at market prices that change throughout the day. Except when aggregated in Creation Units, shares are not redeemable securities of the Fund. Creation Units may only be purchased or redeemed by Authorized Participants. An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation or (ii) a Depository Trust Company participant and, in each case, must have executed a Participant Agreement with the Distributor. Most retail investors do not qualify as Authorized Participants nor have the resources to buy and sell whole Creation Units. Therefore, they are unable to purchase or redeem the shares directly from the Fund. Rather, most retail investors may purchase shares in the secondary market with the assistance of a broker and are subject to customary brokerage commissions or fees.

Adasina Social Justice All Cap Global ETF

Notes to the Financial Statements

February 28, 2025 (Unaudited)

The Fund currently offers one class of shares, which has no front-end sales load, no deferred sales charge, and no redemption fee. A fixed transaction fee is imposed for the transfer and other transaction costs associated with the purchase or sale of Creation Units. The standard fixed transaction fee for the Fund is \$7,000, payable to the Custodian. The fixed transaction fee may be waived on certain orders if the Fund's Custodian has determined to waive some or all of the costs associated with the order or another party, such as the Adviser, has agreed to pay such fee. In addition, a variable fee may be charged on all cash transactions or substitutes for Creation Units and Redemption Units of up to a maximum of 3% of the value of the Creation Units and Redemption Units subject to the transaction. Variable fees are imposed to compensate the Fund for transaction costs associated with the cash transactions. Variable fees received by the Fund, if any, are disclosed in the capital shares transactions section of the Statements of Changes in Net Assets. The Fund may issue an unlimited number of shares of beneficial interest, with no par value. All shares of the Fund have equal rights and privileges.

NOTE 11 - RECENT MARKET EVENTS

U.S. and international markets have experienced and may continue to experience significant periods of volatility in recent years and months due to a number of economic, political and global macro factors including uncertainty regarding inflation and central banks' interest rate changes, the possibility of a national or global recession, trade tensions and tariffs, political events, armed conflict, war, and geopolitical conflict. These developments, as well as other events, could result in further market volatility and negatively affect financial asset prices, the liquidity of certain securities and the normal operations of securities exchanges and other markets, despite government efforts to address market disruptions. As a result, the risk environment remains elevated.

NOTE 12 - SUBSEQUENT EVENTS

In preparing these financial statements, management has evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued. Management has determined that there are no subsequent events that would need to be recognized or disclosed in the Fund's financial statements.

Item 8. Changes in and Disagreements with Accountants for Open-End Investment Companies.

There have been no changes in or disagreements with the Fund's accountants.

Item 9. Proxy Disclosure for Open-End Investment Companies.

There were no matters submitted to a vote of shareholders during the period covered by the report.

<u>Item 10.</u> Remuneration Paid to Directors, Officers, and Others of Open-End Investment Companies.

See Item 7(a). Under the Investment Advisory Agreement, in exchange for a single unitary management fee from the Fund, the Adviser has agreed to pay all expenses incurred by the Fund, including Trustee compensation, except for certain excluded expenses.

<u>Item 11. Statement Regarding Basis for Approval of Investment Advisory and Sub-Advisory</u> Contracts.

The Board of Trustees (the "Board" or the "Trustees") of Tidal ETF Trust (the "Trust") met at a meeting held on September 18, 2024 to consider the renewal of the Investment Advisory Agreement (the "Advisory Agreement") between the Trust, on behalf of the Adasina Social Justice All Cap Global ETF (the "Fund"), a series of the Trust, and Tidal Investments LLC, the Fund's investment adviser (the "Adviser"). Prior to this meeting, the Board requested and received materials to assist them in considering the renewal of the Advisory Agreement. The materials provided contained information with respect to the factors enumerated below, including a copy of the Advisory Agreement, a memorandum prepared by outside legal counsel to the Trust and Independent Trustees discussing in detail the Trustees' fiduciary obligations and the factors they should assess in considering the renewal of the Advisory Agreement, due diligence materials relating to the Adviser (including the due diligence response completed by the Adviser with respect to a specific request letter from outside legal counsel to the Trust and Independent Trustees, the Adviser's Form ADV, select ownership, organizational, financial and insurance information for the Adviser, biographical information of the Adviser's key management and compliance personnel, detailed comparative information regarding the unitary advisory fee for the Fund, and information regarding the Adviser's compliance program) and other pertinent information. Based on their evaluation of the information provided, the Trustees, by a unanimous vote (including a separate vote of the Trustees who are not "interested persons," as that term is defined in the Investment Company Act of 1940, as amended (the "Independent Trustees")), approved the renewal of the Advisory Agreement for an additional one-year term.

Discussion of Factors Considered

In considering the renewal of the Advisory Agreement and reaching their conclusions, the Trustees reviewed and analyzed various factors that they determined were relevant, including the factors enumerated below.

1. Nature, Extent and Quality of Services Provided. The Board considered the nature, extent and quality of the Adviser's overall services provided to the Fund as well as its specific responsibilities in all aspects of day-to-day investment management of the Fund, including trade execution and recommendations with respect to the hiring, termination, or replacement of sub- advisers to the Fund. The Board considered the qualifications, experience and responsibilities of the Adviser's investment management team, including

Michael Venuto and Charles Ragauss, who each serve as a portfolio manager to the Fund, as well as the responsibilities of other key personnel of the Adviser involved in the day-to-day activities of the Fund. The Board reviewed due diligence information provided by the Adviser, including information regarding the Adviser's compliance program, its compliance personnel and compliance record, as well as the Adviser's cybersecurity program and business continuity plan. The Board noted that the Adviser does not manage any other accounts that utilize a strategy similar to that employed by the Fund.

The Board also considered other services provided to the Fund, such as monitoring adherence to the Fund's investment strategy and restrictions, oversight of Robasciotti & Associates, Inc., doing business as Adasina Social Capital ("Adasina" or the "Sub-Adviser"), the Fund's sub-adviser, and other service providers to the Fund, monitoring compliance with various Fund policies and procedures and with applicable securities regulations, and monitoring the extent to which the Fund achieves its investment objective as an actively-managed ETF. The Board noted that although the Fund is actively-managed, the Fund seeks to invest its assets to achieve exposures similar to those of the Adasina Social Justice Index (the "JSTC Index"). The Board noted that the Adviser is responsible for trade execution for the Fund and the Sub-Adviser is responsible for portfolio investment decisions for the Fund, subject to the supervision of the Adviser.

The Board concluded that the Adviser had sufficient quality and depth of personnel, resources, investment methods and compliance policies and procedures essential to performing its duties under the Advisory Agreement and managing the Fund and that the nature, overall quality and extent of the management services provided to the Fund, as well as the Adviser's compliance program, were satisfactory.

2. Investment Performance of the Fund and the Adviser. The Board considered the investment performance of the Fund and the Adviser. The Board also considered the Fund's performance against its benchmark index and select peer groups. The Board also considered that because the portfolio investment decision-making for the Fund is performed by the Sub-Adviser, the Fund's performance is not the direct result of investment decisions made by the Adviser.

The Board considered the performance of the Fund on an absolute basis, in comparison to its benchmark index (the Dow Jones Global Index TR) and in comparison to the JSTC Index. The Board also considered comparative information prepared by the Adviser, in partnership with AltaVista Research, LLC, a third-party ETF research firm, comparing the Fund to a peer group of ETFs within the Fund's designated Morningstar category (a peer group of U.S. global large-stock blend funds) (the "JSTC Peer Group"), as well as a peer group of ETFs representing a subset of the JSTC Peer Group based on select criteria (the "JSTC Select Peer Group"). The Board noted that the Fund underperformed the Dow Jones Global Index TR for the year-to-date, one-year, three-year and since inception periods ended June 30, 2024. The Board noted that the Fund underperformed the JSTC Index for the year-to-date, one-year, three-year and since inception periods ended June 30, 2024, and discussed factors that accounted for such differences. The Board also considered that the Fund had underperformed the JSTC Peer Group median and average for the one-year and three-year periods ended August 2, 2024. The Board noted that the Fund ranked 27 out of

34 funds in the JSTC Peer Group for the one-year period ended August 2, 2024, and 19 out of 22 funds in the JSTC Peer Group for the three-year period ended August 2, 2024.

After considering all of the information the Board concluded that the performance of the Fund was satisfactory under current market conditions and that the Adviser has the necessary expertise and resources in providing investment advisory services in accordance with the Fund's investment objective and strategies. Although past performance is not a guarantee or indication of future results, the Board determined that the Fund and its shareholders were likely to benefit from the Adviser's continued management.

3. Cost of Services Provided and Profits Realized by the Adviser. The Board considered the cost of services and the structure of the Adviser's advisory fee, including a review of comparative expenses, expense components and peer group selection. The Board took into consideration that the advisory fee for the Fund was a "unitary fee," meaning that the Fund pays no expenses other than the advisory fee and certain other costs such as interest, brokerage, and extraordinary expenses and, to the extent it is implemented, fees pursuant to the Fund's Rule 12b-1 Plan. The Board noted that the Adviser continues to be responsible for compensating the Fund's other service providers and paying the Fund's other expenses out of its own fees and resources, subject to an agreement with the Sub-Adviser who has contractually agreed to assume such obligation in exchange for the profits, if any, generated by the Fund's unitary fee. The Board also considered the overall profitability of the Adviser and examined the level of profits accrued to the Adviser from the fees payable under the Advisory Agreement. The Board considered that the Fund's advisory fee of 0.89% was above the JSTC Peer Group and JSTC Select Peer Group averages of 0.434% and 0.608%, respectively, and that the Fund's expense ratio of 0.89% was above the JSTC Peer Group and JSTC Select Peer Group averages of 0.442% and 0.678%, respectively.

The Board concluded that the Fund's expense ratio and the advisory fee were fair and reasonable in light of the comparative performance, advisory fee and expense information and the investment management services provided to the Fund by the Adviser given the nature of the Fund's investment strategy. The Board also evaluated, based on a profitability analysis prepared by the Adviser, the fees received by the Adviser and its affiliates from their relationship with the Fund, and concluded that while the Fund was profitable to the Adviser, the fees had not been, and currently were not, excessive, and the Adviser had adequate financial resources to support its services to the Fund from the revenues of its overall investment advisory business.

- **4. Extent of Economies of Scale as the Fund Grows.** The Board compared the Fund's expenses relative to its peer groups and discussed realized and potential economies of scale. The Board considered the potential economies of scale that the Fund might realize under the structure of the advisory fee. The Board noted that the advisory fee did not contain any breakpoint reductions as the Fund's assets grow in size, but that the Adviser would evaluate future circumstances that may warrant breakpoints in the fee structure.
- 5. Benefits Derived from the Relationship with the Fund. The Board considered the direct and indirect benefits that could be received by the Adviser and its affiliates from

association with the Fund. The Board concluded that the benefits the Adviser may receive, such as greater name recognition or the ability to attract additional investor assets, appear to be reasonable and in many cases may benefit the Fund.

Conclusion. Based on the Board's deliberations and its evaluation of the information described above, with no single factor determinative of a conclusion, the Board, including the Independent Trustees, unanimously concluded that: (a) the terms of the Advisory Agreement are fair and reasonable; (b) the advisory fee is reasonable in light of the services that the Advisor provides to the Fund; and (c) the approval of the renewal of the Advisory Agreement for an additional one-year term was in the best interests of the Fund and its shareholders.

The Board met at a meeting held on February 22, 2024 to consider the approval of an amended sub-advisory agreement (the "Sub-Advisory Agreement") for the Fund, proposed to be entered into between the Adviser and Adasina. The Board 's approval of the Sub-Advisory Agreement was required because the Sub-Advisory Agreement delegated proxy voting authority to Adasina, a service which had previously been performed by Tidal. Prior to this meeting, the Board requested and received materials to assist them in considering the approval of the Sub-Advisory Agreement. The materials provided contained information with respect to the factors enumerated below, including a copy of the Sub-Advisory Agreement, a memorandum prepared by outside legal counsel to the Trust and the Independent Trustees discussing in detail the Trustees' fiduciary obligations and the factors they should assess in considering the approval of the Sub-Advisory Agreement, due diligence materials prepared by the Sub-Adviser (including the due diligence response completed by the Sub-Adviser with respect to a specific request letter from outside legal counsel to the Trust and the Independent Trustees, the Sub-Adviser's Form ADV, select financial and information ownership. organizational. insurance for the Adviser, biographical information of key management and compliance personnel, and the Sub-Adviser's compliance manual and code of ethics) and other pertinent information. The Trustees also reviewed the Fund's performance and expenses against a peer group of funds prepared by Tidal ETF Services LLC in partnership with AltaVista Research, LLC, a third-party research firm, consisting of a peer group of exchange-traded funds in the Fund's designated Morningstar category. Based on their evaluation of the information provided, the Trustees, by a unanimous vote (including a separate vote of the Independent Trustees), approved the Sub-Advisory Agreement for an initial two-year term.

Discussion of Factors Considered

In considering the approval of the Sub-Advisory Agreement and reaching their conclusions, the Trustees reviewed and analyzed various factors that they determined were relevant, including the factors enumerated below.

1. Nature, Extent and Quality of Services to be Provided. The Board considered the nature, extent and quality of overall services that had been provided by Adasina under the existing sub-advisory agreement and those to be provided by Adasina to the Fund under the Sub-Advisory Agreement, as well as Adasina's specific responsibilities in all aspects of day-to-day investment management of the Fund. The Board also considered that Adasina would be assuming responsibility for voting proxies for the Fund under the Sub-Advisory Agreement. The Board considered the qualifications, experience and responsibilities of Rachel Robasciotti and Maya Philipson, who have served as co-portfolio managers for the

Fund since its inception, as well as the responsibilities of other key personnel of Adasina involved in the day-to-day activities of the Fund. The Board reviewed the due diligence information provided by Adasina, including information regarding Adasina's compliance program, its compliance personnel and compliance record, as well as Adasina's cybersecurity program and business continuity plan. The Board noted that Adasina does not manage any other accounts that utilize a strategy similar to that employed by the Fund.

The Board also considered other services to be provided to the Fund under the Sub-Advisory Agreement, such as monitoring adherence to the Fund's investment strategies and restrictions, monitoring compliance with various Fund policies and procedures and with applicable securities regulations, monitoring the extent to which the Fund meets its investment objective as an actively-managed ETF and quarterly reporting to the Board. The Board considered how Adasina had provided such services under the existing sub-Advisory agreement. The Board noted that Adasina would continue to have full discretionary authority for portfolio management decisions for the Fund under the Sub-Advisory Agreement, subject to oversight by the Adviser, as it had been responsible under the existing sub-advisory agreement.

The Board concluded that Adasina had sufficient quality and depth of personnel, resources, investment methods and compliance policies and procedures essential to performing its duties under the Sub-Advisory Agreement and managing the Fund and that the nature, overall quality and extent of the management services to be provided to the Fund, as well as Adasina's compliance program, were satisfactory.

2. Investment Performance of the Fund and the Sub-Adviser. The Board noted that, pursuant to the existing sub-advisory agreement, Adasina had served as the investment subadviser to the Fund since inception and has been responsible for selecting investments for the Fund. Accordingly, the Board discussed the performance of the Fund on an absolute basis, in comparison to the Fund's benchmark index, the Dow Jones Global Index TR, in comparison to the Adasina Social Justice Index (the "JSTC Index"), and in comparison to a peer group of funds prepared by the Adviser, in partnership with AltaVista Research, LLC, a third-party research firm, comparing the Fund to a peer group of ETFs within the Fund's designated Morningstar category (U.S. global large-stock blend funds) (the "JSTC Peer Group"). The Board noted that the Fund underperformed the Dow Jones Global Index Total Return for the one-year period ended December 31, 2023, but outperformed the Dow Jones Global Index TR over the three-year and since inception periods ended December 31, 2023. The Board noted that the Fund underperformed but was generally in line with the performance for the JSTC Index for the one-year, three-year and since inception periods ended December 31, 2023 and discussed factors that accounted for such differences. The Board also noted that the Fund ranked third out of fifteen funds in the JSTC Peer Group over the one-year period ended February 2, 2024 and third out of nine funds in the JSTC Peer Group over the three-year period ended February 2, 2024.

After considering all of the information, the Board concluded that the performance of the Fund was satisfactory under current market conditions and that Adasina has the necessary expertise and resources in providing investment sub-advisory services in accordance with the Fund's investment objective and investment strategies. Although past performance is not a guarantee or indication of future results, the Board determined that the Fund and its shareholders were likely to benefit from Adasina's continued management.

3. Cost of Services to be Provided and Profits to be Realized by the Sub-Adviser. The Board considered the structure of the proposed sub-advisory fee to be paid by the Adviser to Adasina under the Sub-Advisory Agreement. The Board noted that the sub-advisory fee payable under the Sub-Advisory Agreement would remain unchanged at 0.02% of the Fund's average daily net assets.

Further, since the sub-advisory fee is paid by the Adviser, the overall advisory fee paid by the Fund is not directly affected by the sub-advisory fee paid to Adasina. Consequently, the Board did not consider the cost of services provided by Adasina or the potential profitability of its relationship with the Fund to be material factors for consideration given that Adasina is not affiliated with the Adviser and, therefore, the sub-advisory fee to be paid to Adasina was negotiated on an arm's-length basis. Based on all of these factors, the Board concluded that the sub-advisory fee to be paid to Adasina by the Adviser reflected an appropriate allocation of the advisory fee and was reasonable in light of the services to be provided by Adasina.

- **4.** Extent of Economies of Scale as the Fund Grows. Since the sub-advisory fee payable to Adasina is not paid by the Fund, the Board did not consider whether the sub-advisory fee should reflect any potential economies of scale that might be realized as the Fund's assets increase.
- 5. Benefits to be Derived from the Relationship with the Fund. The Board considered the direct and indirect benefits that could be received by Adasina from its association with the Fund. The Board concluded that the benefits Adasina may receive, such as greater name recognition or the ability to attract additional investor assets, appear to be reasonable and in many cases may benefit the Fund.

Conclusion. Based on the Board's deliberations and its evaluation of the information described above, with no single factor determinative of a conclusion, the Board, including the Independent Trustees, unanimously concluded that: (a) the terms of the Sub-Advisory Agreement are fair and reasonable; (b) the sub-advisory fee is reasonable in light of the services that Adasina will provide to the Fund; and (c) the approval of the Sub-Advisory Agreement for an initial term of two years was in the best interests of the Fund and its shareholders.
